ABOUT

As a detail-oriented and diligent individual, I am seeking a position where I can leverage my skills to gain practical experience and launch my career in a dynamic and professional environment. With a methodical approach and good programming skills, I am committed to achieving success and delivering results that exceed expectations.

EXPERIENCE —

18th July 2022 – 16th Sept 2022
Associate Developer • SAP Labs
India

KEY SKILLS —

- Proficient in C/C++, Java, and C#
- Basic Knowledge of Unity and Unreal Engine
- Familiarity with game development tools such as Maya and Photoshop
- Strong problem-solving and analytical skills
- Good communication and collaboration skills

VOLUNTEER EXPERIENCE —

MyCode Technologies

May 2023

Volunteered as a programmer adding game mechanics and enhancing user experience.

Insanity Crew

November 2023

Lead a team of unity developers and created a mobile game.

EDUCATION

BCA – 2020-23

Vivekanada Institute of Professional Studies, Pitampura, Delhi
CGPA = 8.8

MCA – 2023-25

K.R Mangalam University, Sohna, Haryana
SGPA = 7.2

PROJECTS

- Delivery Disasters – A 3D driving game where you have to deliver packages from door to door. The game has realistic physics and good graphics. The game is optimized and can run on potato PCs as well.
anmol-1903.itch.io/delivery-disasters
- Monophobia – A 3D first person horror game where you are stuck at a place. The protagonist is suffering from monophobia (fear of being alone). The protagonist needs to find a key in the abandoned house to escape. Don't mind the jumpscare...
anmol-1903.itch.io/monophobia
- Rubber Bang – A 3D multiplayer FPS game where you and your friend are two small children imagining to be in a shootout in a park. When a player loses a point, they gain a powerup of their choice. Let's see who's better... {Prototype}
